How to Make Your SEO A-OK

GOVTalks: SEO Workshop

Today's agenda:

- Learn what SEO is
- See what to do
- See what NOT to do
- Get in and do some work!

What is SEO?

"Search engine optimization is a methodology of strategies, techniques and tactics used to increase the amount of visitors to a website by obtaining a high-ranking placement in the search results page of a search engine (SERP) -including Google, Bing, Yahoo and other search engines."

-Webopedia

No, really....what is SEO?

Search engine optimization is all about creating an overall positive search experience for your user that utilizes accessibility and best content practices.

Basics of Search Engines

- They "crawl" websites like a spider
- Based on what they find, the results are ranked in order of relevance • The best results float to the top

What do you need in your toolbelt?

- Google Webmaster Tools
- Rank Tracker
- Page Rank

Dashboard

Messages

- Search Appearance 1
- ✓ Search Traffic

Search Analytics Links to Your Site Internal Links Manual Actions International Targeting Mobile Usability

Google Index

Crawl

Security Issues

Other Resources

Search Analytics (beta) Analyze your performance on Google Search. Filter and compare your results to better understand your user's search patterns. Learn more. Go back to old "Search Queries" report.

Add Free PAGE RANK Check tool to your site

In order to add this free page rank checker tool to your web site and give your visitors the way to check the ranking of any pages **directly from your site**, just copy the following HTML code and put it into your HTML document where you want the check page rank tool to appear:

<div style="text-align:center;">

How do you climb to the top of the results page?

- Spend time filling in your meta tags, synonyms, alt text and descriptions
- CREATE FRESH CONTENT
- Be accessible
- Try to cater to your user's needs

Build media relatio

- Social media
- Positive mentions!
- Guest blogging
- Sharing content

What should you NOT do?

- Don't pay for SEO!
- Don't engage in blackhat SEO
- Don't stuff too much content on the homepage
- Don't try to have too many pages

Demo log in

- <u>http://training-5.gtaprd-acquia.fayze2.com</u>
- Username: Editor
- Password: 547Editor

Meta tags

- Provide details about the page, but don't alter the way the page looks
 Holp search ongines find details about you
- Help search engines find details about your page

Summaries

- Helps the reader get an idea of what the content is about
- Should be concise, 2-3 sentences

Abstracts

For longer pieces of content
A little more involved than a summary, but still concise and short

Synonyms

Help the auto-suggest search bar on your homepage
Type in words that could be associated with the content

Alternate text

- For screen readers, so it's very important for accessibility
- Must be short yet descriptive
- Different from the title box

Keywords

 Important to be throughout your content, but not overused

Today's agenda:

- Learn what SEO is
- See what to do
- See what NOT to do
- Get in and do some work!
